

ENDECK[®]
PVC DECKING
By Eastern Metal Supply

FOR BOAT DOCKS, MARINAS & BOARDWALKS

Walking the Plank has Never Felt So Good!

Advance to the Next Generation of Capped Cellular Decking with Endeck™
www.endeck.com

ENDECK™ LOVES WATER, IT CAN EVEN FLOAT

Not only does Endeck provide homeowners with a beautiful and long lasting deck, it also works great for Docks, Marinas, and Boardwalks!

Whether you are in salt water climates or near inland lakes and streams, Endeck provides a gorgeous textured, slip-resistant deck board for ultimate enjoyment without the hassles of maintenance.

Moisture typically destroys wood and composite decking causing mold, mildew, warping and decay. Endeck is totally unaffected by moisture and will keep looking great year after year. Furthermore, Endeck retains less heat than wood and composites providing a cooler surface for bare feet.

What you need to know about Endeck:

- CCRR 0144 - Tested and ASTM D7032 code compliant since 2009
- Deep embossing provides a surface with excellent traction wet or dry
- Impervious to water and will not rot
- All Endeck boards are dual sided and reversible
- Woodland Series holds Class A Flame Spread Rating
- 30 Year Limited Fade & Stain Warranty (Forest Series)
- Works with multiple fastening systems
- Will not leach chemicals or by-products into the ecosystem
- Because Endeck is 100% PVC, it is recyclable unlike composites or wood
- Endeck decking is compatible with all types of substructures and railings, including aluminum, steel and wood
- Endeck is light (1.55 lb. per linear foot) and ideal for removable and fixed docks

Endeck Forest™ Series

The deep, rich colors of Endeck Forest™ Series lend a natural beauty that is only found on the most expensive hardwoods.

Even though the colors are exotic, Endeck manufacturing technology allows the decking underfoot to remain comfortable, and cooler to the touch - even on the hottest days. The impressive 30 Year Limited Fade and Stain Warranty offers additional peace of mind and long term sustained beauty.

Endeck employs our exclusive HardCover™ Capstock, a higher performance outer surface delivering unmatched durability and ultra-low maintenance.

With an unmatched ability to resist stains and fading, Endeck Forest Series decking is sure to provide many years of worry-free enjoyment, even in high traffic areas. Our process allows for a rough sawn textured plank with subtle color variations as random as those found in nature.

Ashwood

Beechwood

Olivewood

Endeck Woodland™ Series

Making decks and docks better, with lower maintenance, and beautiful finishes, Woodland™ Series decking offers soft earthy hues and is a favorite amongst coastal communities.

Endeck captures the classic look and feel of real wood, but leaves the headaches of extra maintenance time and expense behind. The textured wood grain on both sides of Endeck's capped cellular PVC deck boards mimic the look and feel of real wood. Tough Inside and Even Tougher Outside. Endeck Woodland Series boards are strong, durable, engineered to resist sagging, and lighter in weight than composite, capped composite or treated wood deck boards. Endeck boards meet or exceed stringent AC174 and AC10 criteria. We have been ASTM D7032 compliant since 2009. The Woodland boards have achieved a Class A Flame Spread Rating.

WHY IS ENDECK™

THE PERFECT CHOICE FOR YOUR NEXT DECK OR DOCK PROJECT?

Beautiful, Low Maintenance, Hassle-Free

- Ultra-low maintenance, cleans up in a snap
- Three solid, earthy colors (Woodland)
- Five exotic, variegated colors (Forest)
- Impervious to bug infestations, no termites
- No wood fillers or cellulose to rot
- Fade resistant
- Eco-friendly - recyclable
- Does not support mold or mildew growth
- Excellent traction wet or dry

Safe, Kid and Pet Friendly

- No splinters or nail pops
- Stays cooler underfoot
- Stain resistant
- Superior flame spread ratings
- Textured non-slip surface
- Perfect for high traffic areas

Easy to Install, with a Top Notch Warranty

- Excellent limited lifetime warranty
- Reversible deck board results in less waste
- Lightweight, easy to install
- Installs with a variety of fasteners
- Commercial and residential applications
- Available in 12', 16' and 20' lengths
- 12' matching Fascia
